BARBADOS
WORLD CUP
2026

MAY 17, 2026

LOCATION

Barbados is the eastern-most Caribbean island. It is located at 13.1N, 59.4W. The island, which is less than one million years old, was created by the collision of the Atlantic crustal and Caribbean plates, along with a volcanic eruption. Later coral formed, accumulating to approximately 300 feet. It is geologically unique, being actually two land masses that merged together over the years.
